

THE EARLY RISER

MAR. 1/24

Welcome to the 2024 golf season!

>>> The countdown is on, 19 days 'til spring. Lets get after it!

The team have been working hard at limbing up the tree's around the course this winter. This practice promotes better air flow. Also, helps with errant shots.

Stairs are being added to our most problem walk on's.

The greens and tees surrounds are very wet this time of year, please proceed with caution.

Spring aeration is scheduled for March 26-27th.

Lets hope for some good weather and a speedy recovery!

Bunker renovations are under way. The team will be busy edging, pulling weeds and removing rocks.

Please stay on the cart paths as much as possible. We ask that you drive through the puddles, rather than going around them.
